CONTENTS OF VOL. CLVIII

ORIGINAL ARTICLES

The Management of Postpneumonic Empyema Based upon 310 Cases. By Willard J. Stone, M.D. 1

Scleroderma and Sclerodactyly: Report of a Case with Roentgen Rays and Review of the Literature. By Reginald M. Atwater, M.D. 29

Neurocirculatory Asthenia (Soldiers' Heart). By John H. Carroll, M.D. 35

The Relation of the Bacillus Influenza to the Recent Epidemic. By Guthrie McConnell, M.D. 47

Bacillus Botulinus Poisoning, with a Report of Seven Cases, Four of which Proved Fatal. By G. W. McCaskey, M.D. 57

A Review of the Epidemic of Influenza at the Base Hospital, Camp Beauregard, La., with Special Reference to Symptoms and Sequelæ. By Donald J. Frick, M.D. 68

Bacteriological Observations on the Epidemic of Influenza at Camp Beauregard, La. By J. E. McClelland, M.D. 80

The Treatment of Epithelioma by Radium. By Russell H. Boggs, M.D. 87

Cerebral Hemorrhage of the Newborn. By Margaret Warwick, M.D. 95

Pneumohydrothorax. By James I. Johnston, M.D. 105

One Aspect of Syphilis as a Community Problem. By H. S. Newcomer, M.D., Russell Richardson, M.D., Charlotte Ashbrook and Paul A. Lewis, M.D. 141

The Cardiovascular Defective. By Louis M. Warfield, A.B., M.D. . 165

A Case of Perforated Gastric Ulcer with Abscess Formation; Perforation through the Lung, with Spontaneous Recovery. By Julius Friedenwald, M.D. 179

Lumbar Puncture as a Factor in the Causation of Meningitis. By Paul Wegeforth, M.D., Captain, U.S.A., and Joseph R. Latham, M.D., First Lieutenant, U.S.A. 183

The Relation of the Streptococcus Hemolyticus to "Influenza" and Pneumonia. By Captain M. B. Levin, M.C., First Lieut. D. A. Goodman, M.C., and Second Lieut. F. J. Pancoast, S.C., U.S.A. 202

The Influenza-Pneumonia Epidemic at Camp Dodge, Iowa, 1918. By Edward T. Edgerly, Major, M.C., U.S.A.; Frank M. Manson, Captain, M.C., U.S.A.; William G. Dwinell, Major, M.C., U.S.A.; and James G. Carr, Captain, M.C., U.S.A. 212

Laboratory Report on Epidemic Pneumonia, Camp Dodge, Iowa. By William G. Dwinell, Major, M.C., U.S.A. 216

Clinical Aspects of Pneumonia following Influenza, Camp Dodge, Iowa, 1918. By James G. Carr, Captain, M.C., U.S.A. 232

Report of the Surgical Service, U. S. Army Base Hospital, Camp Dodge, Iowa, on the Epidemic of Influenza of 1918. By Frank M. Manson, M.D., Captain, M.C., U.S.A. 244

Food Factors in Gastro-enterology. By Dr. Lafayette B. Mendel . 297

Observations in the Terminal Stage of a Case of Hepatic Cirrhosis. By Frederick M. Allen, M.D. 307

The Diagnosis of Late Syphilis of the Central Nervous System. By Channing Frothingham, M.D. 312

The Murmurs of Mitral Stenosis and of Aortic Regurgitation. By Harold E. B. Pardee, M.D. 319

A Comparison of Medical Casualties in British and American Troops at a General Hospital in France. By Reginald Fitz, Major, M.C., U.S.A., and Alice Cunningham 328

Operation of Spinal Decompression. By Norman Sharpe, M.D. . . 335

Prominent Features of the Psychoneuroses in the War. By John F. W. Meagher, M.D., Major, M.C., U.S.A. 344

Localization of Tumor Metastases. By G. E. Armstrong, C.M.G., M.D., LL.D. (Queens), D.Sc. (Liverpool), and H. Oertel, M.D. . 354

Isolation of the Meningococcus from Cases of So-called Influenza. By Major Roger Kinnicutt, M.C., U.S.A., and First Lieut. Carl A. L. Binger, M.C., U.S.A. 360

Account of an Epidemic of Influenza Among American Troops in England. By F. M. Meader, M.D., Major, M.C., U.S.A.; J. H. Means, M.D., Major, M.C., U.S.A.; and J. G. Hopkins, M.D., Captain, M.C., U.S.A. 370

The Unidentified Pandemic Disease (Influenza?). By Dudley Roberts, M.D., Major, M.C., U.S.A. 397

Pneumonia as a Complication of Epidemic Influenza. By Captain A. V. Bock, M.C., U.S.A., and Captain J. L. Stoddard, M.C., U.S.A. 407

The Cardiac Phase of the War Neuroses. By Alfred E. Cohn, M.D. 453

A Long Duration of Remission in Pernicious Anemia. By Charles G. Stockton, M.D. 471

Meningococcus Arthritis. By W. W. Herrick, M.D., and G. M. Parkhurst, M.D. 473

Concerning Ascending Renal Tuberculosis. By Leo Buerger, M.D., F.A.C.S. 482

Effects of the Injection of Atropin on the Pulse-rate, Blood-pressure and Basal Metabolism in Cases of "Effort Syndrome." By Cyrus C. Sturgis, First Lieut., M.C., U.S.A.; Joseph T. Wearn, M.D., First Lieut., M.C., U.S.A.; and Edna H. Tompkins 496

Points of Differential Diagnostic Value in Pulmonary Abscess, Bronchiectasis and Pulmonary Tuberculosis, with an Explanation of the Cause of the Difference in Auscultatory Findings. By Francis Marion Pottenger, A.M., M.D., LL.D. 502

Imminent Psychology: A Prophecy and a Plea. By Joseph Collins, M.D. 510

Bronchiectasis: Its Differentiation from Pulmonary Tuberculosis. By B. Stivelman, M.D. 516

A Case of Enlarged Thymus Gland and Some Remarks on Status Lymphaticus. By Richard Cole Newton, M.D. 534

Transitional Leukocytosis and Its Diagnostic Value in Chronic Appendicitis. By C. A. Friedman, M.D. 545

Case of Mediastinal Hodgkin's Granuloma, with Perforation of the Chest Wall. By M. W. Lyon, Jr., M.D. 557

Field Observations on Blood Volume in Wound Hemorrhage and Shock. By Roger I. Lee, M.D., Lately Lieut.-Col., M.C. 570

Cytological Studies of Pleural Exudates Complicating Influenza. By Balduin Lucke, M.D., Dr.P.H., First Lieut., M.C., U.S.A., and Ruth Barker, A.B., Technician, U.S.A. 577

Recent Advances in Gastric Physiology. By Walter C. Alvarez, M.D. 609

Persistent Eosinophilia with Hyperleukocytosis and Splenomegaly. By H. Z. Giffin, M.D. 618

Medical Aspects of Wounds of the Chest in War. By George Cheever Shattuck, M.D. 629

The Heart in Bronchopneumonia: Observations on the Activity of the Heart and its Response to Digitalis made during the Recent Epidemic. By T. Stuart Hart, M.A., M.D. 649

Transfusion of Blood in Pernicious Anemia: Report of an Interesting Case. By J. M. Anders, M.D., LL.D. 659

Hypertension: Its Significance, Relation to Arteriosclerosis and Nephritis and Etiology. By Eli Moschcowitz, A.B., M.D. 668

Meningo-encephalitis as the only Manifestation of Mumps: Report of Three Cases. By Tasker Howard, Major, M.C. 688

Myxoma of the Heart Simulating Bronchopneumonia. By Willey H. Norton, Major, M.C. 685

The Bacteriology of Mumps: Report of Findings at Camp Lee. By Russell L. Haden, Lieut., M.C. 698

Is Essential Epilepsy a Life Reaction Disorder? By L. Pierce Clark, M.D. 703

Blood Transfusion. By J. R. Losee, M.D. 711

Vaccination by Subcutaneous Injection. By Major J. R. Goodall, C.A.M.C., O.B.E., B.A., M.D., C.M., D.Sc. (McGill Univ.), F.A.S.G. 721

Laboratory Studies in Influenza at Camp Travis, Texas. By Philip B. Matz, Captain, M.C., U.S.A. 723

The Medical Aspects of Reconstruction. By W. S. Thayer, M.D., Hon. F.R.C.P.I. Late Brig.-Gen., M.C. 765

Cardiac Diagnosis in the Light of Experiences with Army Physical Examinations. By Lewis A. Conner, M.D. 773

Report of a Case of Rupture of an Aortic Aneurysm into the Left Innominate Vein. By James B. Herrick, M.D. 782

On the Clinical Significance of Postural Changes in the Blood-pressures, and the Secondary Waves of Arterial Blood-pressure. By Henry Sewall, M.D. 786

Note on the Vital Capacity of the Lungs and the Carbon Dioxide Combining Capacity of the Blood in Cases of "Effort Syndrome." By Frank D. Adams, M.D., First Lieut., M.C., U.S.A., and Cyrus C. Sturgis, M.D., First Lieut., M.C., U.S.A. 816

Studies of Cases of "Effort Syndrome" with Measured Work. By Thomas McC. Mabon, M.D., First Lieut., M.C., U.S.A. 818

The Position of the Arm in Blood-pressure Measurements. By Morris H. Kahn, M.D. 823

Functional Diagnosis of Polyglandular Disease in Acromegaly and Other Disturbances of the Hypophysis. By C. P. Howard, M.D. 830

The Problem of Nutrition and a Satisfactory Method of Feeding in High Intestinal Fistulas. By Max Minor Peet, M.A., M.D., F.A.C.S. 839

Later Stages of So-called War Nephritis. By Tasker Howard, M.D., and A. F. Robertson, First Lieut., M.C. 844

Lethargic Encephalitis in the A. E. F.: A Clinical Study. By A. Skversky, M.D., Capt., M.C., U.S.A. 849

The Significance of Certain Pulmonary Lesions in Relation to the Etiology of Influenza. By Ernest W. Goodpasture, M.D. 863

Roentgenological Determination of Pulmonary Tuberculosis. By F. E. Diemer, M.D., and I. H. Cramer, M.D. 871
